

Anoy Dey

Web Developer

Profile

Seeking a challenging position as a frontend developer to leverage my 4 years of expertise in Web development. Skilled in hand coding for web development using HTML, CSS, JavaScript, jQuery, Angular JS, React JS, Firebase, Node js, PHP, MySQL, and WordPress, I aim to contribute my thorough knowledge of the UI design process and outputs throughout the development lifecycle. With a strong background in API integration and development, I am eager to utilize my skills and experience to create dynamic and innovative web solutions. My objective is to collaborate with a forward-thinking team to deliver exceptional user experiences and drive technological advancements in the field of web development.
